866-872-5901

**Check if passes inspection:**

**RAILS**

- Open cracks, open gouges, fractures
- Scratches or scuffs
- Foreign materials: Paraffin, grease, mud
- Product Labels

**HARDWARE**

- Rust—pins, hooks, locks, etc.
- Looseness
- Deformed, broken, or missing hardware
- Deformed, cracked, or gouged

**RUNGS**

- Worn tread on rung
- Loose rung-to-rail connections
- Bends, deformities, cracks in aluminum
- Deep scores or damage on rungs

**LOCKS**

- Locks do not engage properly
- Binding or excessive play
- Sharp burrs, edges, nicks
- Needs lubrication

**STEPLADDERS**

- Spreaders—loose or missing rivets
- Cracks in side rails
- Worn or missing foot pads
- Loose connection or wear on top cap

**SAFETY SHOES**

- Cracks or damage to extrusions
- Worn or dirt-filled treads
- Less than 1/16" tread remaining

**If ladder fails inspection, remove from service until repaired or destroyed**
